SCHOOL OF VOCATIONAL STUDIES (B.VOC.)

Introduction

Sabarmati University offers courses currently beginning with certificate course and leading to Bachelor of Vocational Degree (B.Voc). Every individual level/year is a standalone certification recognised and awarded by Sabarmati University. This course allows the students who have completed 12th standard or equivalent to join directly at NSQF Level 5 based on their academic achievements.

The target group for such courses is largely marginalised youth who are seeking non – formal educational methods to enhance earning capabilities and thereby improving livelihood conditions. This Vocational Educational Programme is being implemented for the first time in India with a focus on job specific skills rather than providing only a broad based education.

Ministry of HRD, Government of India had issued an Executive Order in September 2011 for National Vocational Education Qualification Framework (NVEQF). Subsequently, Ministry of Finance, in pursuance of the decision of Cabinet Committee on Employment and Skill Development in its meeting held on 19th December, 2013, has issued a notification for National Skills Qualifications Framework (NSQF) which supersedes NVEQF.

The University Grants Commission (UGC) has launched a scheme on skills development based higher education as part of college / university education, leading to Bachelor of Vocation (B.Voc.) Degree with multiple exits such as Diploma/Advanced Diploma under the NSQF.

The B.Voc. programme is focused on universities and colleges providing undergraduate studies which would also incorporate specific job roles and their NOSs alongwith broad based general education. This would enable the graduates completing B.Voc. to make a meaningful participation in accelerating India's economy by gaining appropriate employment, becoming entrepreneurs and creating appropriate knowledge.

OBJECTIVES

The basic aim of School of Vocational Studies at Sabarmati University is to foster skilled students who are job ready. We are committed to the following outcomes from the B.Voc. Programme.

- To provide judicious mix of skills relating to a professional and appropriate content of General Education.
- To ensure the students have adequate knowledge & skills, so that they become work ready.
- Such graduates are expected to meet the needs of local & national industry.
- To provide vertical mobility to students coming out of 10+2 with vocational subjects.
- To integrate NSQF within the undergraduate level of higher education in order to enhance employability.
- To provide flexibility to the students by means of predefined entry and multiple exit points.

VISION

To Become Centre of Excellence In Vocational Education, by providing the standard academics that connect Knowledge, Practice and Skills.

MISSION

To foster Vocational graduates by providing a continuous & improved academic environment that promotes the advancement of vocational knowledge both in creation and dissemination.

B.VOC. CURRICULUM

The curriculum of B.Voc. programmme is divided in two parts:

1. Skill Development Components

A. The focus of skill development components shall be to equip with appropriate knowledge, practice and attitude, so as to become work ready. The Skill Development Components should be relevant to the industries as per their requirements.

B. The curriculum should necessarily embed within itself, National Occupational Standard (NOSs) of specific job roles within the industry sector(s). This would enable the students to meet the learning outcomes specified in the NOSs.

C. The overall design of the skill development component along with the job roles selected should be such that it leads.

D. In case NOS is not available fea/job role, the university should get the curriculum for this to develop in consultation with industry experts.

E. The curriculum should also focus on work-readiness skills in each of the three years.

F. Adequate attention to be given in curriculum design to practical work, on the job training, development of student portfolio and project work.

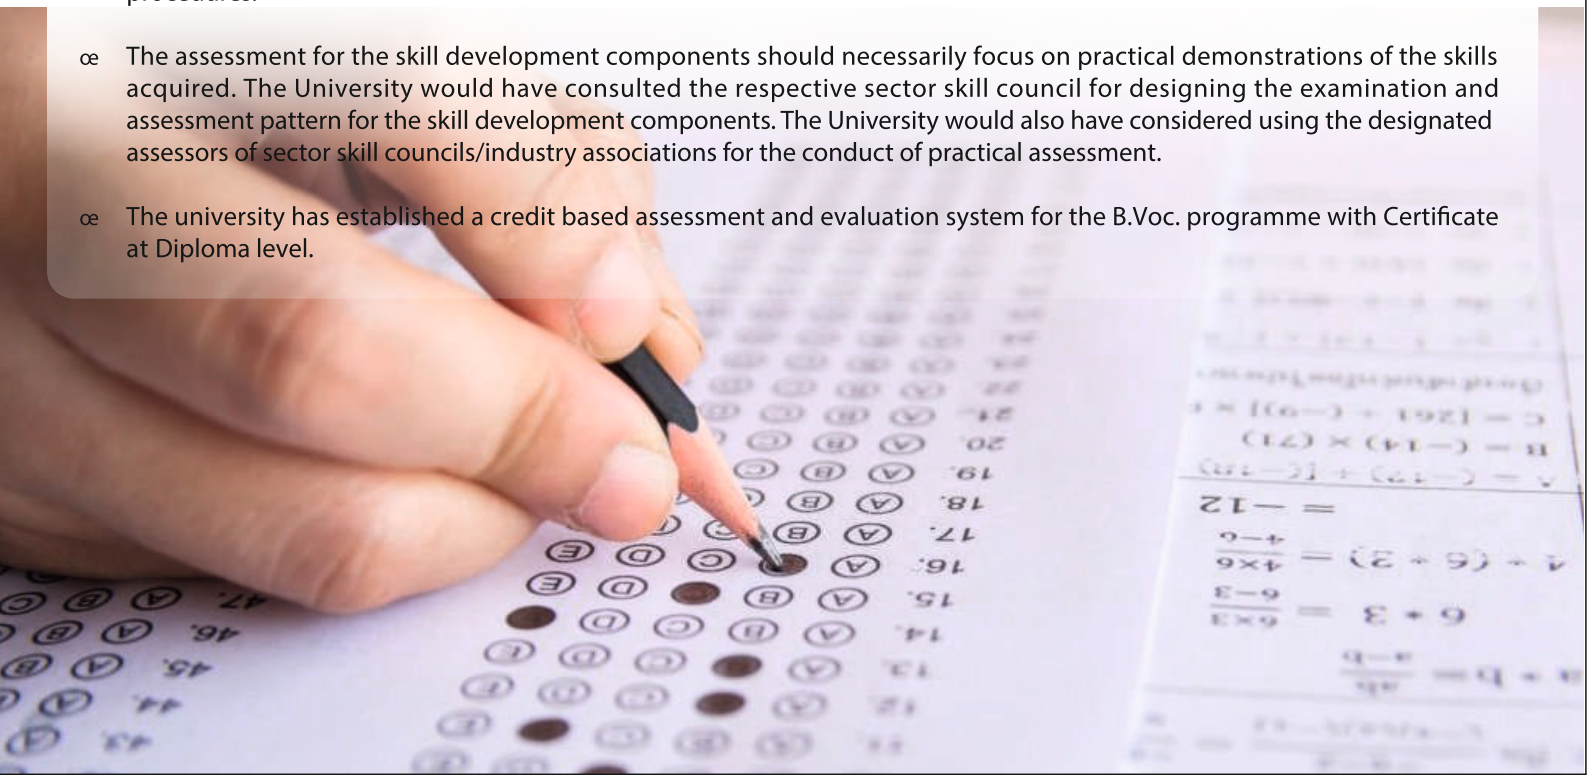

2. General Education Component

A. The General education component should adhere to the normal university standards. It should emphasise and offer courses which provide holistic development. However, it should not exceed 40% of the total curriculum.

B. Adequate emphasis should be given to language, communication skills and subject specific knowledge.

EXAMINATION AND ASSESSMENT

- The assessment for the general education component should be done by the university as per their prevailing standards and procedures.
- The assessment for the skill development components should necessarily focus on practical demonstrations of the skills acquired. The University would have consulted the respective sector skill council for designing the examination and assessment pattern for the skill development components. The University would also have considered using the designated assessors of sector skill councils/industry associations for the conduct of practical assessment.
- The university has established a credit based assessment and evaluation system for the B.Voc. programme with Certificate at Diploma level.
